What to Study

How to Study

What Education to Invest In

How to Overcome the Fear of
Investing in Yourself

Definition

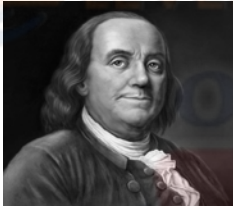

The act or process of imparting or acquiring particular knowledge or skills, as for a profession.

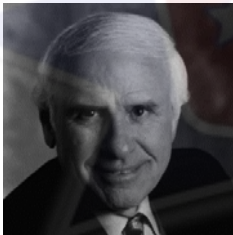

Education is the most powerful weapon which you can use to change the world.

-Nelson Mandela

An investment in knowledge pays the best interest.

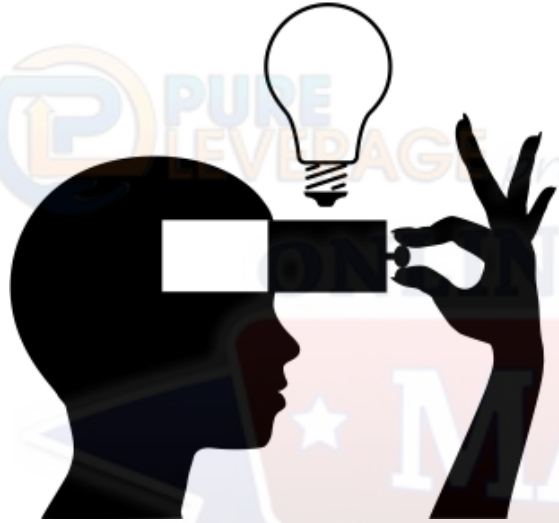

-Benjamin Franklin

Formal education will make you a living; self-education will make you a fortune.

-Jim Rohn

The **purpose of education** is to replace an empty mind with **an open one**.

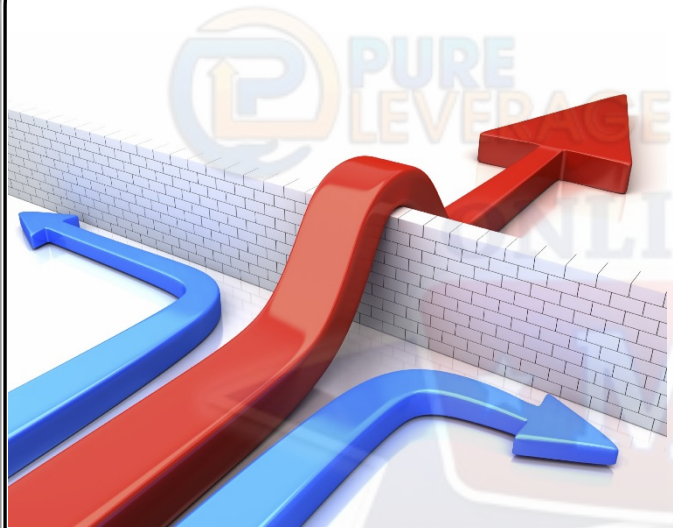

My Question is

1. Are you Learning to Learn ? (Theory)
2. Or are you earning while you learn? (Application)

Every profession has a recommended **path**.

Doctors go to Med School

Lawyer goes to Law School

Black Belts Go to Martial Arts School

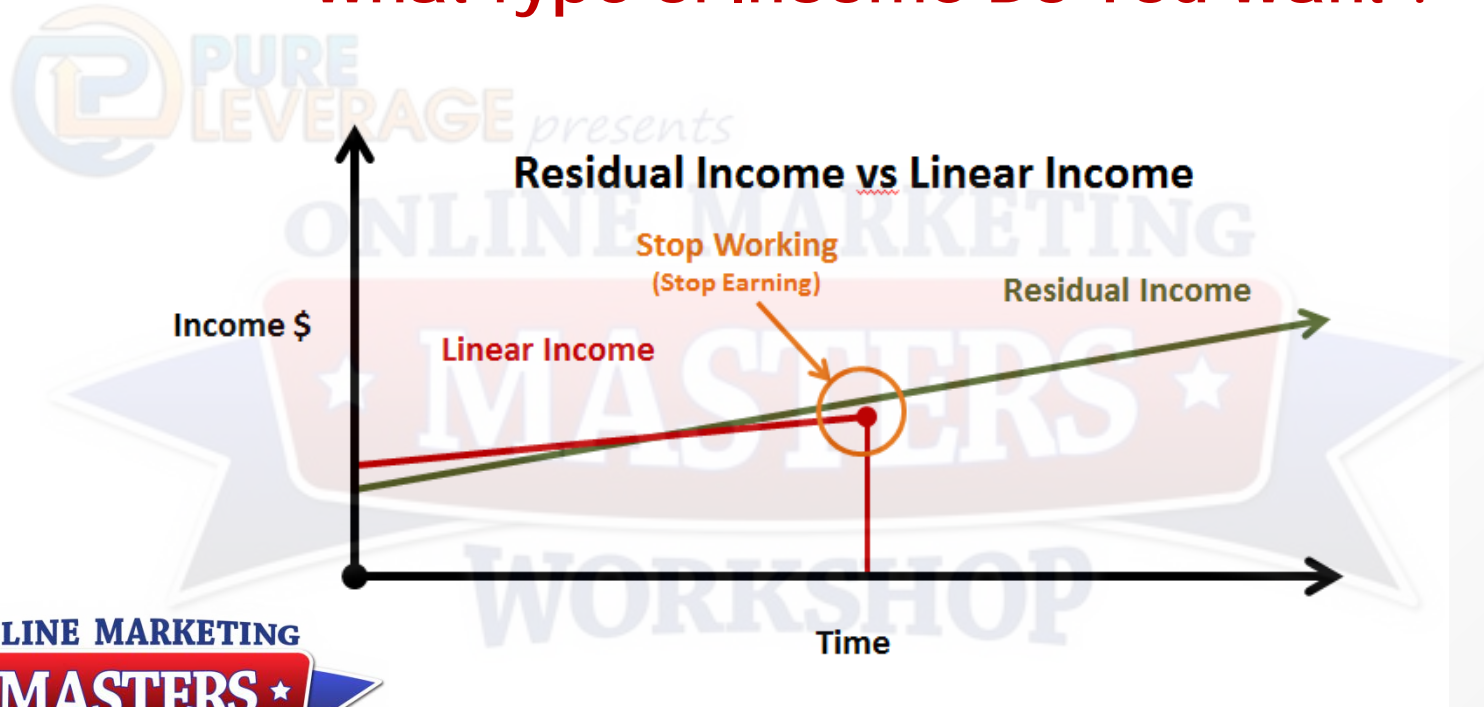

Swimmers have to Jump into the Pool

Bottomline: *Apply Your Knowledge. Make it Happen.*

What Type of Income Do You Want ?

I would rather earn 1% off a 100 people's efforts than 100% of my own efforts

John D. Rockefeller

*"The richest people
in the world look
for and build
NETWORKS.
Everyone else
looks for work."
~Robert Kiyosaki*

Most professions it takes 4-10 years to receive a degree and finally make some money. All results will vary of course depending on the person and the effort. Online Marketing teaches people the skills to make money immediately.

*Remember, Earn while you learn but give yourself time to see your success through. Sometimes people give up after 30-60 days when they are just getting started. **That is a huge mistake.***

Remember the time, money, and energy you invested to your education in the past. The Potential rewards are so enormous here and if we devote ourselves we will get results. Find a mentor and start duplicating success.

Remember, success leaves clues.

PROCRASTINATION

I'LL FIND A PICTURE FOR IT LATER

ONLINE MARKETING

★ MASTERS ★

WORKSHOP

Procrastination = The action of
delaying or postponing something.

I'd be more frightened by not using whatever abilities I'd been given. I'd be more frightened by procrastination and laziness.

~Denzel Washington

Procrastination is one of the most common and deadliest of diseases and its toll on success and happiness is heavy

~Wayne Gretzky

We tend to do what we think is important. **What are our priorities?**

Make the time for what is important. Don't believe your excuses. Find the reasons to do something and you will do it.

Our minds are like a **Big Super Computer**. We have to be very careful what programs we install in our mind. Education is a Fantastic thing but you must choose very wisely what and where you are learning.

This **Online Masters Course** will provide you the knowledge to get you to your goals and dreams. It is up to you to through the material and apply the education.

People around the world pay a very high premium for education. Education is one of the biggest investments some people make. I like getting a return on my investments, **how about you?**

Analysis Paralysis or paralysis of analysis is the state of over-analyzing (or over-thinking) a situation so that a decision or action is never taken, in effect paralyzing the outcome. A decision can be treated as over-complicated, with too many detailed options, so that a choice is never made, rather than try something and change if a major problem arises. A person might be seeking the optimal or "perfect" solution upfront, and fear making any decision which could lead to erroneous results, when on the way to a better solution.

Stop getting ready to get ready and get into massive and effective action towards the attainment of your goals and dreams.

Do it
NOW!

Don't wait to be perfect before you take action.
You will get better and better as you apply your education and take massive action.

You can do it!! You will do it
